

## Phone upgrade from Internal Storage

### Preparation: What do you need?

- Smartphone of Unihertz (Battery loaded 50% or more)
- OTA package for Unihertz – Official OTA packages will be announced here:

[OTA: packages for Unihertz](#) – download and **don't** unpack .zip file.

### Note:

Please recheck the model of your device and get the correct OTA package!

Please do not use any OTA package that is not specified for your device!

Otherwise it will brick your device.

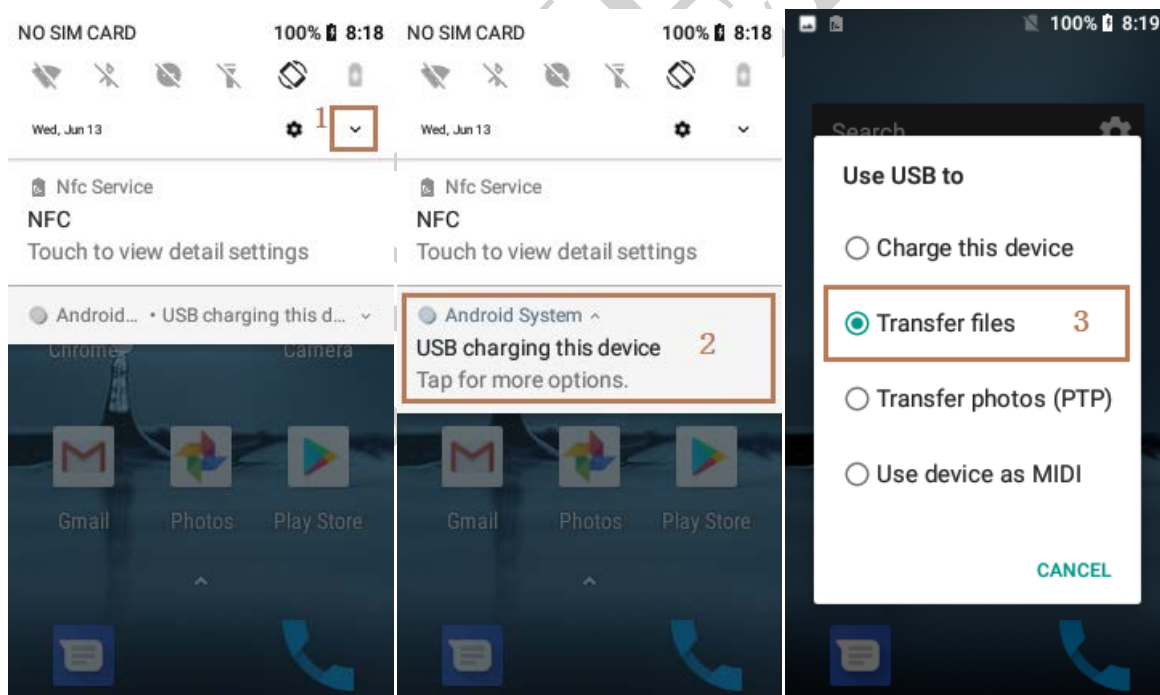

### Ready! What to do now?

- 1、 **Power on your phone** and connect your phone to PC via a original USB cable

1) Click 

2) Tap for more options.

3) Select “Transfer files”

- 2、 Please copy your otapackage [2018060610\\_g35v63c2k\\_dfl-ota.zip](#) to Internal Storage's root directory.

- 3、 Through the main menu "Settings -> System -> About phone -> Wireless Update ", then follow the onscreen instructions to upgrade from Internal Storage.

**Note:** The update process may take several minutes to complete. Do not use your phone before it has finished updating. Your phone will restart automatically when it has finished updating
